8.1.11 Details of New initiation in administering Kriyakalpa procedures.

- We use swimming goggles for Netratarpanainstead of conventional method (Urad Pali) to make the procedure easy.
- Ashyotana done by preparing modified drops.
- Sterilization is given first priority during the procedure particularly in eyes.
- Special Kriyakalpa procedures (SthanikChikitsa)sheet is prepared for Shalakyatantra procedures procedures like Tarpan, Putpaka, Ashyotana, Parisheka, Nasya, Karnapooran etc.
- Raktamokshana is also done Syringe, Needle, Vaccum pumps instead of previous conventional method.
- For Karna pooran we use Syringe, drops instead of Gokarna yantra.
- Eye wash cup is used for Netradhawan instead of conventional methods.
- All the preparations like Kwatha,Swarasa are prepared freshly with supervision and standardization is done to asses PH of drugs for better tolerance.
- We are keeping regular updates and implements new initiations in administering Kriyakalpa Procedures.
