Subject- Report of Basic Life Support Training (B.L.S.)/ Compression only Life support (C.O.L.S.) training program for newly admitted PG students.

Respected Sir,

With respect to the above subject, Department of Kayachikitsa, submitting report of Basic Life Support Training (B.L.S.)/ Compression only Life support (C.O.L.S.) training program for newly admitted PG students

This training Program was conducted from 19/04/2023 to 21/04/2023, Time- 2 P.M. to 4.30 P.M. at Conference hall of Sane Guruji Arogya Kendra, Malwadi, Hadapsar, Pune 411028.

Total participants in this training program were - 72

The aim of this program was to equip these essential support staff members with life-saving skills to effectively respond to emergencies and improve overall patient safety within the hospital environment. The primary objectives of the BLS and COLS training program for newly admitted PG students. To train and educate participants in basic life-saving techniques, including CPR and compression-only resuscitation.

1. To enhance participants' ability to recognize cardiac arrest and initiate appropriate emergency responses.
2. To empower participants with the skills necessary to provide immediate assistance during critical situations within the hospital setting.
3. To promote a culture of safety and preparedness among hospital support staff.

Training Content

The training curriculum was tailored to the specific roles and responsibilities of newly admitted PG students covering essential topics related to basic life support and compression-only resuscitation. Key components of the training included:

1. Introduction to basic life support (BLS) principles and techniques.
2. Hands-on training in cardiopulmonary resuscitation (CPR) for adult patients.
3. Instruction on compression-only life support (COLS) and its application in emergency situations.
4. Recognition of signs of cardiac arrest and other life-threatening conditions.
5. Practice sessions focusing on chest compressions, rescue breathing (if applicable), and use of automated external defibrillators (AEDs).
6. Simulation exercises to reinforce skills and improve response times during emergencies.

Outcomes

The BLS and COLS training program for newly admitted PG students yielded several positive outcomes:

1. Increased Preparedness: Participants demonstrated improved readiness to respond to medical emergencies and provide immediate assistance when required.
2. Enhanced Safety: The training enhanced overall safety within the hospital by equipping support staff with life-saving skills.
3. Improved Team Collaboration: Participants gained a better understanding of their role within the emergency response team, fostering effective teamwork and communication.
4. Compliance and Standards: The training program ensured compliance with regulatory standards and contributed to maintaining a high level of patient care and safety.

The BLS and COLS training program for newly admitted PG students proven to be instrumental in preparing healthcare professionals to effectively respond to cardiac emergencies and provide life-saving interventions. By imparting essential knowledge and skills, fostering teamwork, and ensuring regulatory
