### Minutes

#### *31<sup>st</sup> Meeting of Institutional Ethics Committee*

Date :- 18/03/2020 to 18/06/2020

Online meeting of Institutional Ethics Committee.

After departmental presentation of title & synopsis in front of HOD's & guide , corrected copies of Synopsis of all the PG students admitted in 2019-2020 were sent to Honourable IEC members on 18/03/2020.

Due to covid -19 pandemic crisis, meeting of IEC which was scheduled on 07, 08 & 09 April was cancelled. Soft copies of all synopsis were sent through Mail to all the honourable IEC members.

IEC members sent their suggestion through mail , on hard copy & also by personally calling to the students. IEC members suggestions were forwarded to the students time to time . Member secretary informed & discussed with IEC chairman about all procedure of synopsis evaluation , suggestions received from IEC members & corrections done by students on 18/06/2020. IEC chairman agree to give approval of title & synopsis of all students. After that students were asked to submit the corrected synopsis , covering letter to IEC chairman regarding corrections according to suggestions of IEC member with permission of HOD & guide.

IEC Chairman scrutinized all the corrected synopsis copies and approved all the title & synopsis of Pre-MD students of 2019-2020 admitted year.

Following Honourable IEC members given suggestions by E-mail , On hard copies & personal calling .

9. Dr. G.P. Prasad

Member of IEC

10. Dr. Vaishali Bhosale (Veer)

Member Secretary IEC

11. Dr. Pranita Joshi-Deshmukh

Research Coordinator

- Minutes of previous meeting was accepted & approved by honourable chairman Dr. V.V. Doiphode.

- **Suggestions given by Honourable IEC members :**

Common Suggestion :

1. Botanical names to be written in scientific manner as follows :
  - a. Genus name should start with Capital letter.
  - b. Species name should start with small letter.
  - c. Genus & Species name should be in italics & underlined.
  - d. Scientist name should be written at the end & should not be in Italics.
2. Vancouver Style of referencing to be followed strictly.
3. Questionnaire to be validated.
4. Generic names to be used instead of brand names for e.g. 'Povidone iodine' instead of 'Betadine'.
5. Correct spelling mistakes & grammars.
6. Include witness name & sign in patients informed consent form if applicable.

### Minutes

#### *32<sup>nd</sup> Meeting of Institutional Ethics Committee*

Date :- 07/07/2021 to 20/07/2021

Online meeting of Institutional Ethics Committee.

After departmental presentation of title & synopsis in front of HOD's & Guides , corrected copies of Synopsis of all the PG students admitted in 2020-2021 were sent to Honourable IEC members on 07/07/2021 due to Covid-19 pandemic crisis. Hard copies of all synopsis were sent to all the honourable IEC members.

IEC members sent their suggestions through e-mail & by hard copy. IEC members suggestions were forwarded to the students from time to time . Member secretary informed & discussed with IEC chairman about all the procedures of synopsis evaluation. Suggestions were received from IEC members & corrections were done by the students until 23/07/2021. After that the students were asked to submit the corrected synopsis. A covering letter to IEC chairman was forwarded regarding corrections made according to the suggestions given by IEC members through the respective HOD's & guides.

IEC Chairman scrutinized all the corrected synopsis copies and approved all the title & synopsis of Pre-MD/MS students of 2020-2021 admission batch.

Following Honourable IEC members provided their suggestions via E-mail / hard copies.

- Minutes of previous meeting was accepted & approved by honourable chairman Dr. V.V. Doiphode.
- **Suggestions given by Honourable IEC members :**  
Common Suggestion :

1. Botanical names to be written in scientific manner as follows :
  - a. Genus name should start with Capital letter.
  - b. Species name should start with small letter.
  - c. Genus & Species name should be in italics & underlined.
  - d. Scientist name should be written at the end & should not be in Italics.
2. Vancouver Style of referencing to be followed strictly.
3. Questionnaire to be validated.
4. Generic names to be used instead of brand names for e.g. 'Povidone iodine' instead of 'Betadine'.
5. Correct spelling mistakes & grammars.
6. Include witness name & sign in patients informed consent form if applicable.

- Remove secondary objective no. 3.
- Dose & duration of study drug to be mentioned in research question & hypothesis.
- Add English consent form.
- Plant material will be procured or collected please specify.
- Please specify from which institute authentication/standardization will be done.
- Please mention the current botanical names of the drugs.

50.

DR. SHARMA PIYUSH

- Remove word control group from methodology.
- In inclusion criteria what do you mean by Diabetes Mellitus ?
- Add "known case of" HIV & immune compromised patients in exclusion criteria.
- Is it Standard controlled trial ?
- If so title should be change accordingly.
- Latin names should be written in standard format.
- Patient information sheet should be in question answer format.
- Page no. 7, Previous work done should be presented in descending order.
- Page no. 32, Reference style - should be in Vancouver style
- Sample size should be calculated using efficacy compare formula.
- Primary objectives should be time bound.
- Remove secondary objective no. 3.
- Dose & duration of study drug to be mentioned in research question & hypothesis.
- Ingredient of Goghрут not mentioned.
- Botanical name of Prushnaparni should be written with authority.

51.

LONDHE SAYALI

- If it is a controlled study you need not mention Shatdhautghrit.
- Remove inclusion criteria no. 4 as it is repeated on page no. 2.
- Questionnaire appears to be part of patient information sheet, If it is so, attach English version of the same.
- Page no. 31 check spellings.
- Page no. 12, Use gender instead of sex.
- Page no. 25, Purpose & nature of study does not match the title.
- Is it Standard controlled trial ?
- If so title should be change accordingly.
- Latin names should be written in standard format.

• Suggestions given by Honourable IEC members :

Common Suggestion :

1. Power point presentation is compulsory for Ph.D. synopsis presentation.
2. Botanical names to be written in scientific manner as follows :
  - a. Genus name should start with Capital letter.
  - b. Species name should start with small letter.
  - c. Genus & Species name should be in italics & underlined.
  - d. Scientist name should be written at the end & should not be in Italics
3. Vancouver Style of referencing to be followed strictly.
4. Questionnaire to be validated.
5. Generic names to be used instead of brand names for e.g. 'Povidone iodine' instead of 'Betadine'.
6. Correct spelling mistakes & grammars.
7. Include witness name & sign in patients informed consent form if applicable.
8. Include left hand thumb impression of patient in case record form.
9. Previous work done to be written in chronological order.
10. All the documents related to the clinical study to be prepared as per ICMR guidelines (CRF, information sheet etc).
11. Qualification of Ph.D. student & Ph.D. guide to be mentioned on title page.

RACHANA SHARIR DEPARTMENT

Sr. No

Name of the Student

Queries

Dr. Harshad Kulkarni

- Patient information sheet to be prepared as per ICMR guidelines and also in local language.
- Genetic factors to be mentioned in exclusion criteria.
- Additional data of patients who continued the pregnancy can be added.
- Sample size can be increased.
- Mention counseling of patient will be done before interview.
- One more centre can be included.

Dr. Swarup More

- Title to be revised. Mention Snehan Swedan in title.
- Can be collaborated with NIN (National institute of Naturopathy).
- 60 % of patients to be registered in admitted college and 40 % patients can be registered in mother college.
- Page no. 21, omit the word "Compensation". Use "benefit" instead.
- How will you decide acupressure points? Co-guide (Acupressure experts) can be included.
- How will you rule out ligaments tear? Whether MRI will be done?

Dr. Samadhan Patil

- Study design to be mentioned in title.
- Revise all clinical documents as per ICMR guidelines.
- Add HIV consent documents.
- Mention female attendants will be present while examining the female patient in consent documents.
- Mention whether withdrawal patients will be replaced or not?
- Discrepancy in lakshanas is seen on Page 14 & 26.

Dr. Vaibhav Bhadage

- Mention whether patient will be replaced if withdrawn.
- Patient information sheet to be added.
- Use simple language in consent form.
- Revise consent form.

KRIYA SHARIR DEPARTMENT

Name of the Student

Queries

Dr. Sheikh Pasha

- Page no. 13 and Page no. 20 discrepancy is seen in duration of use of smart phone.
- How will you justify this study by Kriya Sharir point of view?
- Patient information sheet to be added.
- Hypotheses to be deleted as it is observational study.

- Suggestions given by Honorable IEC members :

❖ Common Suggestions:

- Title – not in upper case, **write in sentence case.**
- Referencing style – **Vancouver style.**
- Font – **Calibri -12.**
- Do not use short term e.g. W.S.R.
- Drug – authentication and standardization of drug as per API and should prepare herbarium of each drug.
- Write proper SOP of drug preparation and standardization of finished product as per AFL.
- For Clinical studies- Mention toxicological studies of every medicinal plant with proper reference from peer review journal and also classical references.
- Botanical name (Italic or underline)- species and genus name should be italic, scientist name – non italic (e.g. *Rubia cordifolia* Linn.)
- Sample size calculation for comparative study – use **WINPEPI sample size calculator** software.
- For control study – mention control group, drug in research question, hypothesis and objectives.
- Mention study duration in research question, hypothesis and objectives.
- Consent form -

Age	Parent Consent required
0 – 12 yr	One
12 – 18 yr	Two
Above 18 yr	No parent consent

- Statistical test – mention statistical test chart as per qualitative, quantitative data.
- Modify Gantt chart up to Dec 2025.
- Objectives should be SMART and time bound.
- Validate questionnaire
- Information sheet should be in question- answer format, include sign and left hand thumb impression of patient.
- Previous work done should be in chronological order.
