7 responses

In social work

PG/ UG:

More exposure of on Field work,

Improvise Practical conduction methods with enough educated well oriented research lab staff,

Including panel discussion like teaching methods to be more inculcated in academics,

Quarterly arrangement of CME-Symposiums related to subjects with ugraded panelist

Inclusion of latest authoured books and arranging meets with Academians to discuss progression of the study.

Periodic assesment for Thesis presentation improvement by all PG teaching staff

All external testing facility, animal labs or drug testing labs should be easily accesible by the students via the help of Teaching staff.

Help& guide students participate in National/International seminars, Job fairs.

Research Work is Important with proper Documentation

No any suggestions

Giving UG student clinical exposure

Internship should be of minimum 6 months during P.G. at industry/Govt or private research institutes/clinics /pharmacovigillence centres

Implementation of each concept in Cilinical practice can enrich the skill of UG and PG Students. They should be assigned small task with practical and physical approach in Hospital and research field.
