Policy of Integration in Hospital

Date of Implementation-01 /06/2025 Version- 06 Revision -06

Draft prepared by: Integration Committee

Approved by: Principal : Dr. Sachinkumar Patil

Implemented by: All Concerned Departments of Hospital

Introduction-

As a medical institute it is our responsibility to establish ideal health care system to maintain the health of every individual and to attend every patient and provide essential medical facility. Ayurveda and Modern medicine both can be used together for the betterment of patient. With Ayurvedic centric care however or whenever needed modern medicine is also given to the patients with the help of respective consultant. Also, as a teaching hospital students learn how and when to use other health care systems. As per new NCISM Gazette clinical training shall be provided by department of Smhita Siddhanta and Kriya Sharir through the OPD and IPD from the first professional session where in students involved in Prakriti, Saara assessment etc.

Teaching hospital is integrated with Modern medicine for the benefit of patient as well as students to have experience of theoretical and practical knowledge.

Yoga therapy is given to the patient for prevention and treatment purpose additionally to ayurvedic treatment.

Objective-

1. To provide effective and comprehensive treatment to each and every patient keeping in view multidisciplinary integration.
2. To advise preventive measures for health promotion.

This policy identifies some of the areas of modern as well as AYUSH health care system as per requirement of patient.

1. For the diagnosis purpose Rognidan department integrated with x-ray, ECG unit and USG unit.

2. Swasthavritta department conducts diet consultation and Yoga OPD in which patient diagnosed with various parameters as per ayurveda and then treated with medication, diet and Yogasana.
3. Shalya department works with various units like major OT for operative procedures and minor OT for small operative procedures including Agni karma, Ksharsutra, jalaukavacharana, etc.
4. Shalya and Panchkarma Departments integrate with physiotherapy to treat the patients.
5. Kayachikitsa department works with ICU for all the emergency procedures and also conduct Diabetic OPD in which screening camps are organized for people, after that treatment is given to the diagnosed patients. TB center is working in our hospital, in which the TB drug is provided with proper follow up. Work for the HIV counseling is going on. Counseling and treatment for psychological disorders is also given.
6. Shalakyatantra dept. works with major OT for operating procedure of ophthalmology, and ENT disorders, small operating procedure was done in minor OT. Ear check up of all new born babies(Otoacoustic Emission (OAE) is done by experts regularly.
7. Kaumarbhrutya department having two NICU in which the complicated neonates are treated with ventilator under the guidance of Neonatologist.
In our hospital all types of vaccination are given weekly to the children.
Special eye check up of premature babies is done by ROP team.
8. Our hospital have a separate Dental OPD in which all the dental procedures are done by the Dentist.
9. Streerog Prasutitantra Department works collaboratively with Obstetrics and Gynecology surgeons in the OT for different surgeries, also having separate labor room where all the procedures are done.
The consultants of modern health care systems are attached with the respective departments for the consultation wherever required.
10. Special OPD for Hematology, Neurology, Diabetes, Obesity, Arthritis, Cardiology, Neurosurgery etc. are also available for the benefit of the patient.
11. MAM'S Dr. Dada Gujar Hospital is established for superspeciality Mother and Child care keeping in view Ayurveda centric integrative services along with NICU, ICU, Labor room and OT. Obstetric Gynecology OPD to treat Infertility, PCOD, ANC care etc.
12. Agadatantra OPD started especially for skin diseases.
