Mechanism of collection, analysis and reporting of ADR's

Each department maintain pharmacovigilance Register and enter the data of adverse event and how it was managed.

Special Form of suspected adverse reactions to ASU Drugs is attached to every case paper. If any reaction is observed it is informed to the committee. The pharmacovigilance committee members have periodic meetings with clinical HOD's and record of adverse event file was checked periodically.

Patient arriving in OPD have been warned not to take any Ayurvedic medicine without supervision of Doctors.

Whatsapp group is created of Pharmacovigilance committee to discuss information regarding ADR if any.

Every month data is collected from the clinical departments. Report is prepared.

Hospital is accredited by NABH. Pharmcotherapeutic committee is working in the hospital to check the safety environment of the hospital.
